EDELSTAHL IN SEINER SCHÖNSTEN FORM

STAINLESS STEEL IN ITS MOST BEAUTIFUL SHAPE

Sie sind auf der Suche nach den passenden Edelstahl-Accessoires?

SIRO hilft Ihnen gerne dabei. Edel und stabil sind nur zwei der vielen Eigenschaften, die unser Edelstahlprogramm zu bieten hat. Lassen Sie sich inspirieren von der Vielfaltigkeit dieses robusten Materials.

Um es ins SIRO-Sortiment zu schaffen, durchläuft der Edelstahl eine strenge Qualitätskontrolle. Eine hohe Chrom- und Nickelkonzentration sowie ein geringer Kohlenstoffgehalt sind hierfür entscheidend.

Wir haben es uns zum Ziel gesetzt, ein hohes Materialniveau zu gewährleisten, um auch zukünftig die Zufriedenheit unserer Kunden zu sichern.

You are looking for the matching stainless steel accessories?

SIRO will gladly help you. Elegant and stable are just two of many features our stainless steel range has to offer. Be inspired by the diversity of this robust material.

To make it to the SIRO-range, the steel passes through a strict quality control. A high chromium and nickel concentration as well as a low carbon content are essentially decisive.

We have made it our goal to guarantee a high level of material to ensure our customers satisfaction.

EDELSTAHL N1, N5

STAINLESS STEEL N1, N5

Bei Edelstahl handelt es sich um einen metallischen, zeitlosen Werkstoff, der einen besonders hohen Reinheitsgrad aufweist. Edelstahl zeichnet sich unter anderem durch seine Korrosions- und Temperaturbeständigkeit sowie durch seine Langlebigkeit und die vielfältigen Verwendungsmöglichkeiten aus.

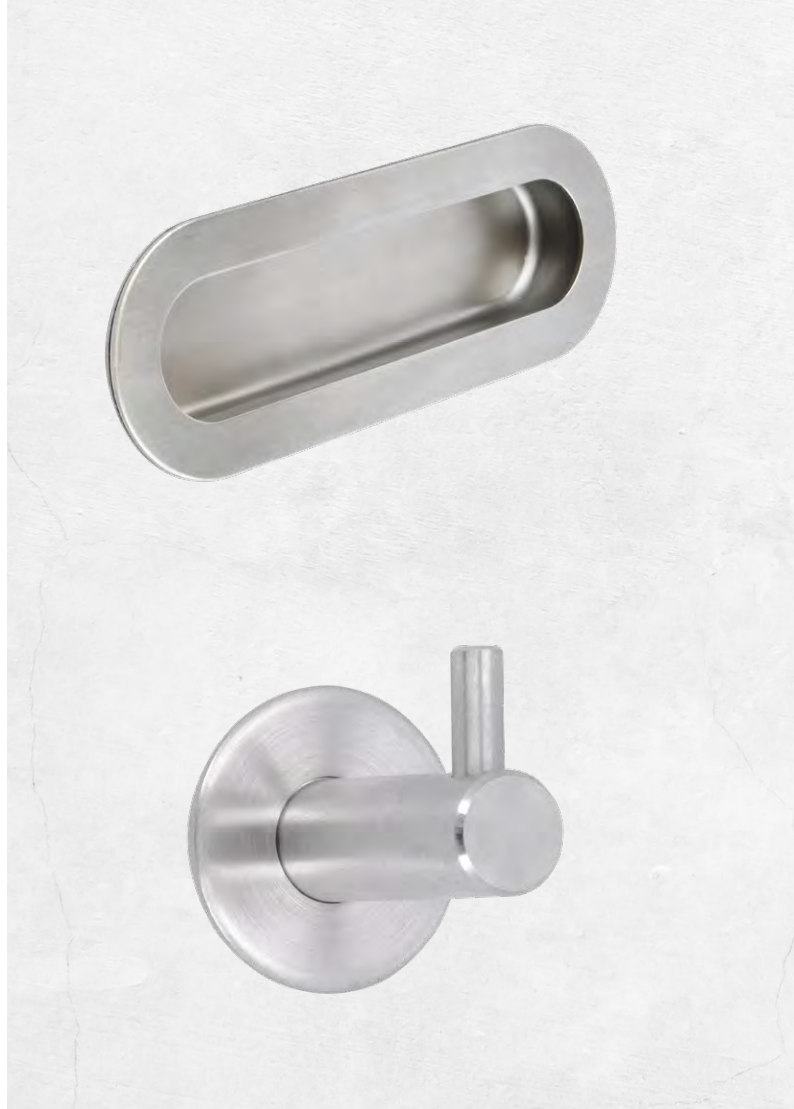

Unserem Nachhaltigkeitsansatz entsprechend legen wir darauf Wert, auch bei unseren Edelstahl-Beschlägen die höchstmögliche Haltbarkeit zu garantieren. Daher achten wir bei der Herstellung besonders auf den richtigen Materialmix, eine präzise Verarbeitung und schonende Ressourcennutzung.

Stainless steel is a timeless alloy with a particularly high level of purity. It stands out due to its resistance to corrosion and high temperatures as well as its durability and many possible uses.

Our commitment to sustainability means that we can guarantee that our stainless steel fittings have the longest possible service life. During production, we pay particular attention to the correct combination of materials, precise workmanship and careful use of resources.
